

## Postsecondary Remediation Definitions

### Current Definition:

Information regarding the extent to which students transition successfully from secondary school to postsecondary education, including whether students enroll in remedial coursework as described in section 6401(e)(2)(D) of the America COMPETES Act (20 U.S.C. 9871) are included in North Dakota's statewide longitudinal data system.

### Current Remedial Rate:

**Numerator:** Number of students from the high school graduating class cohort (denominator) who enrolled in a remedial course, in the subjects of Math, Reading, or English at any point in time in postsecondary.

**Denominator:** All students from the high school on-time graduating class cohort who at any point in time were found to have entered a North Dakota University System School, notwithstanding whether the student enrolled in postsecondary immediately after high school.

## Explanation of Significance

	The percentage of students from the school for the given year that were enrolled in a remedial course is not statistically different from the average percentage of students in that category for the given year.
	The percentage of students from the school for the given year that were enrolled in a remedial course is statistically lower than the average percentage of students in that category for the given year.
	The percentage of students from the school for the given year that were enrolled in a remedial course is statistically higher than the average percentage of students in that category for the given year.
	No students from the school were enrolled in this category for the given year.
